Report on educational visit of forestry students of KVS University of Agricultural and Horticultural Sciences, Shimoga, Karnataka

#Prakriti @Mission Life# A group of 72 BSc forestry final year students along with two faculty members from College of Forestry, Ponnampet, Kodagu, KVS University of Agricultural and Horticultural Sciences, Shimoga, Karnataka visited ICFRE-Himalayan Forest Research Institute Shimla on 13th February, 2024. On behalf of the Director, HFRI, Shimla, Dr. Joginder Singh Chauhan, CTO welcomed students and faculty members to the institute. Thereafter, he gave a power point presentation on research and extension activities of the institute. He mainly discussed technologies and products developed by the institute. He also briefed about the important medicinal plants of north western Himalayan region. Dr. Sandeep Sharma, Director, HFRI Shimla informed students about mandate and objectives of ICFRE. He also guided students to take up higher studies and career in forestry and environment. Dr. Jagdish Singh, Head Extension division briefed about goals of Mission LiFE and encouraged students to play an important role in environment protection. Students were also made aware of Amrit Sarovar Scheme and its importance. All queries of students were satisfied by scientists and officers. Students were also taken to TDC to show the technologies displayed, products and samples of medicinal plants. A representative of students thanked Director, HFRI Shimla and Head Extension division to give opportunity to them to visit the HFRI and also thanked Dr. Joginder Singh Chauhan for apprising them about research and extension activities of the HFRI, Shimla through power point presentation.
